Versioning for Published Articles

- publish changed article version
- keep old versions public
- display metadata accordingly
Conceptioning Process

- conceptional changes at core
- long discussion with PKP (issue)
Backend: Overview of Versions

- A tab for each version (old ones are read only).
- New version via button (copies all relevant data).
- Versioning of metadata (title, author, abstract, etc.).
- Galleys are attached to versions but keep IDs (for statistics).
- Edit and publish later.
Frontend: Current article version

Test Article

Test Author

DOI: https://doi.org/10.1234/test.v0i1.61.1

Abstract

This is the abstract of this test article. This article only demonstrates how nicely the versioning works. :D

Published
2017-04-21

Version History
Version 2 (2017-04-21)
Version 1 (2017-04-21)

How to Cite

URL with version: ../article/version/61/1
Lessons Learned

- better to base on a stable system
- conception before implementation
- communication!
Next Steps

- merge code in master branch
- adapt third party plugins
